Bloomer Healthcare Facility Announces Expansion

BLOOMER – Nearly full for the past six months, Dove Healthcare – Bloomer is preparing to break ground on May 7 to add 10 private rooms to the existing 40 bed skilled nursing and rehabilitation facility. The expansion will include additional dining room space as well.

Regional Director of Operations Jeremy Kiley commented, “We are confident this expansion will help us better meet the short-term rehabilitation and long-term care demands we are experiencing in the community. We have worked closely with Royal Construction to develop a plan that best utilizes our available land space with minimal disruption to daily operations of the facility.”

Construction is expected to be complete by October 2018. Open House details will be announced late summer. For more information, contact Administrator Joe Muench at 715-568-9770.

####

Dove Healthcare consists of six skilled nursing facilities and five assisted living residences that serve the short-term and long-term care needs of people in northwest Wisconsin. Core services include rehabilitation, post-acute care, ventilator care, skilled nursing, long-term and end-of-life care, as well as assisted living and memory care.
