Local Healthcare Provider Receives Top Rating

RICE LAKE – Skilled nursing and rehabilitation provider Dove Healthcare – Rice Lake recently achieved five stars in all categories measured by Centers for Medicare & Medicaid Services (CMS). This is the only provider in Barron County to achieve these results.

Regional Director of Operations Jeremy Kiley commented, “This is a testament to the quality of care provided by our dedicated, professional team members, across all departments. We are committed to maintaining high standards and keeping our patients at the center of all we do.”

The CMS rating system is based on quality measures, staffing ratios, and annual health inspection results. A star rating between one and five is assigned to each of these categories and then combined to calculate an overall rating. In October 2019, the average star rating for Wisconsin skilled nursing facilities was 3.49 and nationally it was 3.12.

Administrator Ariel Miller shared, “I’m so proud of and thankful for our team! It is an honor to work with such a compassionate group committed to excellence. I also want to thank our patients for choosing us as their care provider and the entire community for the support we’ve received since opening in 2016.”
