

TRACHEOSTOMY CARE

Focused on choice, quality, and compassion.

For over 26 years, the community has counted on access to a wide range of capabilities and the experienced nursing professionals at **Dove Healthcare – West Eau Claire.**

In July 2023, we expanded access to **advanced respiratory care** by opening a **specialized, 8-bed tracheostomy care unit** for continued short-term or long-term care.

Supported by a **higher staff ratio**, we care for those with **chronic respiratory needs and complex medical conditions, including IVs, tube feedings, and wound care.**

You will appreciate comfortable, spacious accommodations and receive personalized care by licensed nurses and certified nursing assistants 24 hours a day, seven days a week. Care rounds are completed with our medical director / board-certified pulmonologist and nurse practitioner.

Dr. Kyle Dettbarn
Pulmonologist and
Medical Director

Katie Anderson, BSN, RN
Tracheostomy
Care Director
